# WELCOME TO WESTLAW BUSINESS

Westlaw Business is the first platform to combine relevant filings, law, and guidance with online resources created exclusively for business law professionals.

With advanced features that help you to devise the best possible solutions, Westlaw Business is the new industry standard for professionals who are involved in securities, M&A, compliance and reporting, contracting, restructuring, private equity, and more.

But what is it that makes Westlaw Business so valuable, especially in today's volatile economy?

Simple. It's a combination of three distinct elements working together to elevate your business to the next level of sophistication and profitability:

- Industry-specific features
- Dynamic content
- Business law research and support

Together, these elements offer an unprecedented system to help you achieve – and exceed – your professional goals, no matter how difficult the environment.

### OPTIMISED FOR THE WAY YOU WORK

Westlaw Business operates like no other platform because it's designed exclusively for business law professionals. Westlaw Business was built with your needs in mind, to support the work you do every day.

#### **Navigator:**

#### **The exclusive foundation of Westlaw Business**

A sophisticated platform requires advanced technology, tuned specifically to the professional needs of the user. And that's exactly what Navigator is – a specialised search taxonomy developed to reflect the unique language of the business law professional.

Navigator “drives” Westlaw Business by:

- Formulating relationships among topics, precedents, guidance, and law
- Driving the development of essential building blocks for your documents
- Continuously updating the transactional topics critical to users

#### **Specific ways Navigator can assist you**

**Risk mitigation.** Refer to Navigator as a current source to inform you of key considerations for various transactions.

**Quick response.** Leverage the efficiency of Navigator queries as a starting point to quickly gather information on a transaction or related document.

**Competitive edge.** Use Navigator to develop and drive the best decisions and actions for your clients on particular matters.

**Business Citator:**  
**A more powerful way to conduct business due diligence**

Business Citator facilitates a deeper understanding of clients, peers, suppliers, acquisition targets, and competitors. In seconds, you can aggregate company information, directors and officers information, reported financials, recent SEC filings, international filings, loan finance agreements, mergers and acquisitions, and analyst reports.

- Effectively use company information for legal disclosure filings, due diligence, and more
- Utilise relevant content that you know is reliable
- Mitigate risk by identifying company “land mines”
- Present a unified business due diligence picture

**Legal Due Diligence Reports:**  
**Professionally formatted reports in minutes**

Legal Due Diligence Reports deliver an instant overview of a potential counterparty or acquisition target in just minutes – professionally formatted and ready to use at your next meeting. Each report is generated as requested, so information is as current as Westlaw Business itself.

- Available from any business due diligence search result
- Advisory Relationships section in each report contains history of counsel used for litigation and deals
- Public company reports contain M&A and business organisation material contracts back to 1997
- Private company reports available for more than 135,000 companies
